JONES AND MAGILL HERE ON FRIDAY

TWO POPULAR PROGRESSIVE
CANDIDATES WILL VISIT
DIXON AGAIN.

TWO O'CLOCK AT FAMILY THEATER

On Friday Afternoon — Candidates for Governor and U. S. Senator Will Be Speakers at "Roosevelt-Jones-Magill" Meeting Which Will Be a Rousing Big One.

Announcement has just been made by local representatives of the Progressive Republican League that a "Roosevelt-Jones-Magill" mass meeting will be held in this city Friday at 2 p. m. at the Family theatre when State Senators Walter C. Jones and Hugh S. Magill, candidates for governor and United States senator respectively, for the second time in this campaign, will speak here.

Since the endorsement of the Jones and Magill campaign and recognition of their leadership of the Roosevelt progressive movement in Illinois by authorized agents of the national association, the presidential fight has become amalgamated with the gubernatorial and senatorial race in Illinois, and this, it is believed, will bring out a greater crowd than on the occasion of the progressive candidates' last visit here.

The alignment, as it is admitted to be in the state, is Taft, Deneen and Cullom, representing the standpat forces, against Roosevelt, Jones and Magill, representing the progressives. The issue has to a large extent narrowed down to the question whether the old regime is to be endorsed and continued in power or whether there is to be a "new deal." In the speeches of Taft, Deneen, Cullom's managers and Lawrence Y. Sherman, also a reactionary candidate, the administration is approved, while Roosevelt, Pinchot, Gov. Johnson, Gov. Bass, Jones and Magill declare the old method should be abandoned for government more closely controlled by the people.

Since their appearance in this city last month, Senators Jones and Magill have spoken in every nook and corner of the state, expounding the initiative, referendum and recall and other measures embraced in Roosevelt's "charter of democracy" outlined in his recent Columbus speech. They declare that ignorance regarding the workings of these principles is the only serious barrier to progressive success this year.

Truesdale trapped the two highwaymen and killed them both, one with a mallet and the other with a revolver. All of the loot was recovered.

STEALS ROOMMATES' VALUABLES; DECAMPS

JOHN BRADSHAW DISAPPEARS,
AND SO DO VALUABLES OF HIS
ROOMMATE AND LANDLADY.

TRIES TO PAWN STOLEN WATCH

Watch Dealer Recognizes Timepiece
as That of Another, and Gives the
Alarm—Stickpins, Revolver and
Money Disappear Simultaneously.

By taking advantage of his roommates' absence from the house, John Bradshaw is alleged to have robbed two of his companions, Henry Baker and Adolph Tomack, and his landlady, Mrs. Alonzo Phillips, of property amounting to nearly \$100. His effort to pawn a \$60 watch, the property of Baker, brought about the discovery of the theft, but not until Bradshaw had had time to get away, and although the officers have made a thorough search no trace of the fugitive has been found.

Yesterday afternoon Bradshaw entered H. C. Dixon's jewelry store and endeavored to pawn a fine Elgin railroad watch, which Mr. Dixon remembered having sold to Baker during the holidays. Bradshaw failed to answer Mr. Dixon's questions satisfactorily and accordingly the suspicions of the jeweler were aroused. He communicated with Baker, who works at the Reynolds wire screen factory, and an investigation was started showing that in addition to the watch, a razor had been taken from Baker's room, a revolver, a \$5 bill and a stickpin were missing from Tomack's room and Mrs. Phillips also lost a pin.

Quit Work Yesterday.
It was learned later that Bradshaw had quit his work at the Grand Detour plow works yesterday noon, had drawn his check and announced his intention of leaving town. After leaving the jewelry store he had gone to the boarding house on West Second street, and from there had walked west. The officers watched all outgoing trains, but obtained no trace of their man, and it is believed that Bradshaw walked to Nelson, where he caught a train. Baker went to Nelson and Deputy Sheriff Phillips went to Sterling last night, but neither was able to get any information concerning the alleged thief.

MISS CRAWFORD COMING HOME.

Word has been received from Miss Bessie Crawford, who has been ill at the Hahnemann hospital in Chicago, stating that she is recovering satisfactorily from her recent attack of scarlet fever, and that it is probable she can come home for a short recuperative visit within a few days.

MAGILL NAME WILL OCCUPY FIRST PLACE

NAME OF PROGRESSIVE CANDIDATE WILL PROBABLY BE PUT WHERE IT BELONGS, AT HEAD OF THE BALLOT.

HEAD OF UNOFFICIAL LIST

Cullom Claimed First Filing, But Circumstances in Manner of Filing Would Make It Seem That Magill Got Unfair Treatment.

Springfield, Ill., Mch. 12.—If the unofficial list of candidates for state offices as given out today by Secretary of State Rose is made official and so certified to the county clerks, the name of State Senator Hugh S. Magill of Princeton will appear first in the list of candidates for republican nomination for United States senator.

In that event the name of Senator Shelby M. Cullom will be second in the list and will be followed in order by the names of Lawrence Y. Sherman and William Grant Webster.

Senator Rose tonight declined to state whether he had made a decision in the Cullom-Magill fight for first place, but it is generally thought that he has and that Magill's name will occupy the coveted place.

Rose Statement Evasive.

In a statement which accompanies the list made public today Secretary Rose says:

"While it probably will be found to be substantially correct, it does not purport to be an official list and it should not be so considered."

The Cullom-Magill controversy began when friends of both, on the same day and almost at the same hour, offered petitions for filing in the secretary of state's office. Cullom's petition bore a filing mark to show it had been received nine minutes earlier than that of Magill.

Magill Is Delighted.

Princeton, Ill., March 12.—"Of course I am delighted with Secretary Rose's decision, for I feel that he has given me a square deal," said Senator Magill tonight upon receipt of a report from Springfield that he had won first place on the primary ballot.

"I never doubted the justice of our cause," he continued, "and I have felt the same confidence in the outcome of the contest as I now feel in my success at the primary on April 9th."

Magill is being flooded with messages of congratulation. Cairo A. Trimble, chairman of the Magill campaign committee of 1,000, expressed the sentiment prevailing among the Magill men in an interview tonight in which he said:

"I congratulate Secretary Rose on his decision. This was a contest to establish the principle that every citizen is entitled to an equal opportunity in the secretary's office. On this principle of equal opportunity in all departments of our government Senator Magill is making a winning fight. The secretary's decision will appeal to every fair-minded man in the state as in exact accord with the justice of the case."

ROSBROOKS OF THE BEND
IN RUNAWAY

Mr. and Mrs. Tryon Rosbrook of Seldom Inn, had a narrow escape from injury when a horse which they were driving to town became frightened at an engine near the John Hettler farm and became unmanageable, plunging through two fences and wrecking the buggy. Mrs. Rosbrook jumped from the buggy as soon as the horse started to run and sustained a sprained ankle. Her husband, however, stuck to the ship and when the buggy was wrecked by a hitching post he received several bruises about the body, fortunately escaping serious injury.

The first grand ball to be given in the home will be on Friday evening and the indications are that the attendance will be large, for the committee in charge has made arrangements for a happy event. THREE CONFESS TO HOLDUP AT MONROE

A TRIO OF WELL-KNOWN YOUNG
MEN ACCUSED OF ROBBERING
GEO. B. ERWIN.

PINKERTON DETECTIVE
FERRETS OUT CRIME

Victim of Holdup, Basketball Team
Manager, Is Dixon Boy and Well
Known Here.

Monroe, Wis., March 12.—Claude Eley, 18; Bert Isley, 24 and Charles T. Nance, 29, three young men well known throughout this city, were arrested late Saturday night, charged with holding up and robbing George B. Erwin, manager of the Monroe Cardinal club basketball team early on the morning of February 23rd last, at which time they took from their victim a grip containing \$71 in cash, the proceeds of a game played the evening before between the Monroe and Janesville teams. The trio languished in jail over Sunday as bail could not be procured on that day, but it was expected that they would be released some time today.

Subsequent to their capture the men made written confession of their guilt, and unless the law takes other than its usual course all three have an excellent chance of doing time at Waupun penitentiary.

Isley "Peaches"

The solving of the crime, which baffled the efforts of the local police was accomplished through a deft bit of work on the part of a Pinkerton detective brought here last week to work on the case. The sleuth after several days' investigation, on last Friday decided upon a line of action. He called into the office of District Attorney McGrath, a young man well known about town; thorough questioning convinced the officer that the lad had no part in the holding up. The detective then called in young Isley and questioned him, "Sweated" for three hours, Isley held his ground gamely. Finally, however, he asked to see Sheriff M. E. Solbra, and to him Isley confessed the whole of the affair, implicating Nance and Eley. The arrest of the latter two was shortly followed, by the signed confession of all three of the accused.

According to the confession, the trio watched Erwin after he left the armory on the night of February 22nd, following him as he accompanied Miss Maria Haren, to her home. Nance was stationed as sentry a short distance from the Haren home, the others being a couple of blocks distant. When Nance saw Erwin start for his boarding house he whistled, and when Erwin approached the other two, who were concealed behind a tree, they jumped out, struck him and grabbed from his hand a grip containing the money. Hastily stowing the satchel under a wooden approach to the sidewalk at the nearest crossing, Eley and Isley hustled away. Nance, however, when Erwin yelled for aid, ran to where the slugged man lay and assisted in carrying him to a nearby house. The plan was that he should return and get the grip and money, but the presence of a couple of police men prevented him from doing so. Next day Nance's father, Street Commissioner W. A. Nance, found the grip, with the money intact, and turned it over to the police.

Young Eley served a short term at the Green Bay reformatory. Isley is a married man, having a wife and one child. His father is a cement contractor and is well known. Nance is unmarried. He has been employed as a chauffeur, Erwin, his victim, is bookkeeper for the Borden Condensed Milk Co., and is a very popular young man. He is a brother of John E. Erwin, a prominent Dixon, Ill., lawyer.

The whole town was wrought up by the news of the arrests and the confessions, and a notable fact is that it is the first holdup ever reported in Monroe.

Because the men were not put formally under arrest until after the midnight hour made it impossible for them to gain their release on Sunday, as bail cannot be given on Sunday in Wisconsin.

YUAN PRISONER IN PEKING PALACE

WILLIAM L. LA FOLLETTE.

Mr. La Follette is the new congressman from the state of Washington. He is a cousin of Senator La Follette of Wisconsin and is also listed as a Progressive Republican. Born in Indiana, he went west at an early age and for thirty years has been a farmer in the state of his adoption.

DIXON STARS HAVE GOOD SEASON AHEAD

LOCAL LADS PREPARE FOR APPROACHING BALL SEASON —
HAVE ORDERED NEW SUITS —
WILL BE STRONG TEAM.

The Dixon Stars baseball team will be five ones this season if the plans of the players materialize, for they have outlined a season of sport that will doubtless give the fans excellent entertainment. Handsome new suits, which the boys claim are the prettiest that have ever been purchased by a Dixon team, have been ordered and the management has already begun booking games for the season. The boys put up a good article of ball last year and promise to give even better satisfaction this summer if they are properly supported. It is probable that a shift will be made in the infield which will add to the efficiency of the team, it being proposed to put Monahan on third and shift Burke to short. Both are clever infielders and the change should make that side of the works a stone wall. Keenan and McCune will do the box work during the season and Joe Keenan, the clever little catcher, will of course, do the receiving stunt.

SHERMAN WILL BE IN DIXON TOMORROW

CANDIDATE FOR U. S. SENATOR
WILL SPEAK TO DIXON VOTERS
THURSDAY EVENING—TO COVER
REST OF COUNTY FRIDAY.

Tomorrow morning Lawrence Y. Sherman, candidate for U. S. senator will, with his party, start the day with a speech at Savanna. The party will be in a special train and will go from there to Fulton, Morrison and so on, and Sherman will speak in Sterling at the Academy of Music tomorrow at 4 p. m.

This will be his last talk of the day before coming to Dixon to make his evening speech.

Judge Sherman will talk to the voters of Dixon and vicinity at eight o'clock tomorrow evening. His crowd is bound to be a large one, for the figure of Lawrence Y. Sherman is a prominent one in Illinois public life.

In Lee County Friday.

On Friday his speaking tour will continue in this section and he is planning on covering this county very thoroughly, for his special train on Friday will visit Polo, Oregon, Mt. Morris, Forreston, Rochelle, Shabbona, Pawpaw, Amboy and the night speech will be made in Mendota.

President Is in Constant Fear
of Assassination by
Chinese Mob.

MISSIONARIES TOLD TO LEAVE

Rebel Chieftain Endeavors to Oust
Local and Provincial Government
—Situation Regarded as
Very Alarming.

Peking, March 13.—President Yuan Shi Kai is a prisoner in his own palace and the fate of the great republic of China still hangs in the balance. Three regiments of Manchu troops guard the entrances to the palace, where the newly-installed head of the nation remains afraid to venture forth because of the danger of assassination.

Foreigners are virtual prisoners in the legation compounds. The outcome is impossible to forecast, but the final test must come before many days.

The streets of the city are full of headless bodies, and the danger of plague is grave. The bodies are those of men punished for looting during the recent rioting, and it is believed few were guilty. Not a single body was in uniform, which indicates all were civilians, the majority being coolies.

Soldiers Are the Real Looters.
They were slain, it is claimed, because it was necessary to provide victims to back up Yuan's declaration that bandits were being punished.

While these helpless victims were being decapitated by the headmen—soldiers with swords—real thieves, garbed in uniform and many bearing on their collars insignia showing that they were officers of the imperial army, were carrying out of the city thousands of wagon loads of the most valuable loot. Gold, silver, silk and other treasures taken from the houses looted have been stored in safe places.

Situation Becomes Serious.
Hongkong, March 13.—The situation at Canton, where revolutionaries under Luk, a brigand chief, are endeavoring to oust the local and provincial governments, is regarded by the consular authorities here as most alarming. European missionaries have been ordered to quit the territory at once, and all the available river vessels are being pressed into service to bring refugees to this city. The Honam brought 1,700 passengers and the Fashan carried 1,300 more.

Several British boats are waiting at their piers in Canton. On account of the danger of sudden trouble they are keeping steam up, ready to depart on the instant if necessary. The gunboats stationed off Canton are cleared for action, and even the stokers are armed to the teeth.

Steal Equipment From Arsenal.
The fighting at Canton began with an attack by brigands several days ago, and has continued constantly ever since in various parts of the suburbs. The attack began to assume serious proportions when the soldiers in the Bogue forts suddenly mutinied and surrendered the forts to Luk's men.

The invaders forthwith equipped themselves from the arsenal, and with modern guns and ammunition took possession of the admiralty building. The number of persons killed or seriously wounded thus far is estimated by refugees at between 100 and 350.

Russia Willing to Aid China.

St. Petersburg, March 13.—The foreign office informed the powers that Russia is willing to participate in the Chinese loan, her share of which is to be one-sixth.

EX-MAYOR DUNNE HERE TOMORROW

DEMOCRATIC CANDIDATE FOR
NOMINATION FOR GOVERNOR
TO SPEAK AT CITY HALL

Ex-Mayor Dunne, democratic candidate for the nomination for governor, will be in Dixon tomorrow and will talk to the voters at the city hall. He will speak at 1 o'clock.

The local managers, Mayor Brinton and Attorney John Devine, state that Mr. Dunne was not advised that Judge Sherman was to speak here tomorrow also, and that when he did find out that the republican candidate for U. S. senator was to be here, it was too late for him to make other arrangements.

Phidian Report.

The regular meeting of the Phidian Art club was held on Tuesday afternoon at the pleasant home of Mrs. C. A. Todd, in North Dixon.

The very interesting papers by Mrs. F. X. Newcomer and Mrs. C. B. Morrison were greatly enjoyed. So popular has been the work in Arts and Crafts that Mrs. Newcomer's paper on "Ancient Arts and Crafts" was indeed interesting to all.

Until the middle of the 19th century art was regarded as a luxury for the rich and not within the reach of the thrifty housewife of the middle class, who did not realize that beautiful things need not always be expensive and that a craft may easily be practiced without skilled and and yet be artistic, giving much pleasure and still be useful.

In the middle ages arts and crafts were protected by guilds and fraternities, which exercised nearly as much power as the patent office today, thus making them more expensive. Many art schools were established connected with monasteries. King Alfred had such a school and by collecting monks from all parts of the Old World much foreign influence was brought into early English Art. Among the materials used in this ancient handicraft were gold, iron, bronze, marble and many other compositions some of which are unknown to us today.

There are many rare and beautiful pieces of ancient tapestry and one of the earliest and finest of these is the Bayeux piece. It is 230 feet long and 9 feet wide, containing figures, animals, buildings, trees, etc., to the number of 1512 objects and is the noblest monument in the world describing English history.

Mrs. Morrison gave a very charming paper on "English Folk Songs and Ballads." The simple folk songs and rhymes told in simple verse from the hearts of the common people, of birds and flowers and many other things near to nature, are greatly contrasted by the artificial court poetry of the 15th century. The true home of the ballad was near the Scottish border and the most popular of these cluster around the true ballad hero and national character, Robin Hood. Most of these have been preserved and copied, Bishop Percy having perhaps, the most complete collection of ballads and songs, on war, love and adventure, ever compiled by one writer, and are enjoyed by both old and young. Few of these ballads are older than the 16th century and have been handed down mostly by oral tradition.

Mrs. Morrison interspersed her paper with readings from these ballads and her readings are always enjoyed by the club. Of those read were parts of Chevy Chase, extracts from Robin Hood, The Two Caribies, and "Waly Waly, But Love Be Bonnie," all written during the 16th and 17th centuries. The old ballads and songs are delightful in their simplicity and were suited to the life and ways of the ancient people, but under modern methods ballads and folk songs are impossible. The guests then assembled in the dining room, where dainty refreshments were served and a pleasant half hour was enjoyed.

Missionary Society.

The Woman's Missionary society of the Baptist church meets Thursday afternoon at the home of Mrs. C. B. Morrison, 122 Dement avenue. The topic for the afternoon study will be, "Our Missions in Burma."

Interest Grows.

Interest in the school of Household Science increases. The total attendance for Tuesday was 91. The demonstrations were very successful, judging from the pleased expressions on the faces of the women as with dish and spoon each helped herself to a sample of rice nut cheese, cup custard or sponge cake lemon pie. Miss Harrison shows her skill when she conducts a class of 20 girls who actually do their own cooking. The program for Thursday follows:

LESSON [No. 3]

From Dr. Rose Optician

My talk to you this week is very important, if you are a sufferer from headaches caused by straining the eyes. It is very important to you, of course, that you should use your eyes, but nature never intended that you should abuse them. I know that most headaches come from straining the normal eye or from using imperfect eyes or, in other words, eyes which do not focus. My experience leads me to believe that all strained eyes can be relieved by properly fitted glasses. When this strain is relieved the headache disappears. Now reason a little: If you are a sufferer from headaches, and you suspect that the cause is strained vision, then my argument must appeal to your case. My experience, gained from treating many cases of eye strain, is valuable to you. Try the remedy of glasses as I fit them, and you will not be disappointed.

THE TREATMENT OF MEN

The best inheritance a father can leave to his children is good health, bright minds and clear intellects. If you have made mistakes in life or lived idly, with nerve centers deranged, blood impoverished and mind befogged, it is time to throw away discouragement and despair. Little minds are tamed and subdued by such misfortune, while great minds rise above them and help nature to repair. You cannot afford to rely upon yourself exclusively. The man who thinks he can do without the right thing. Men with bright, clear eyes, strong, steady nerves, clear skin, muscles and vital organs well nourished and developed, and men who can eat, sleep, well, play well, with a sweet breath and a pleasant smile, are the successful business and social men of this age. If you are cross, irritable, nervous, pain in the back or limbs, suffering with a chronic disease, drain of vital force, blood diseases, varicose, restless at night, or have any private disease or weakness, come and let me talk with you about it. Just a friendly visit, that's all. You need not bring any money. I have no free offer to deceive you. My advice, a careful examination and an acquaintance with you I want you to have. To the study and treatment of men I have devoted special effort in Chicago and throughout the state, directing my attention to secret diseases and losses. I guarantee to cure these diseases.

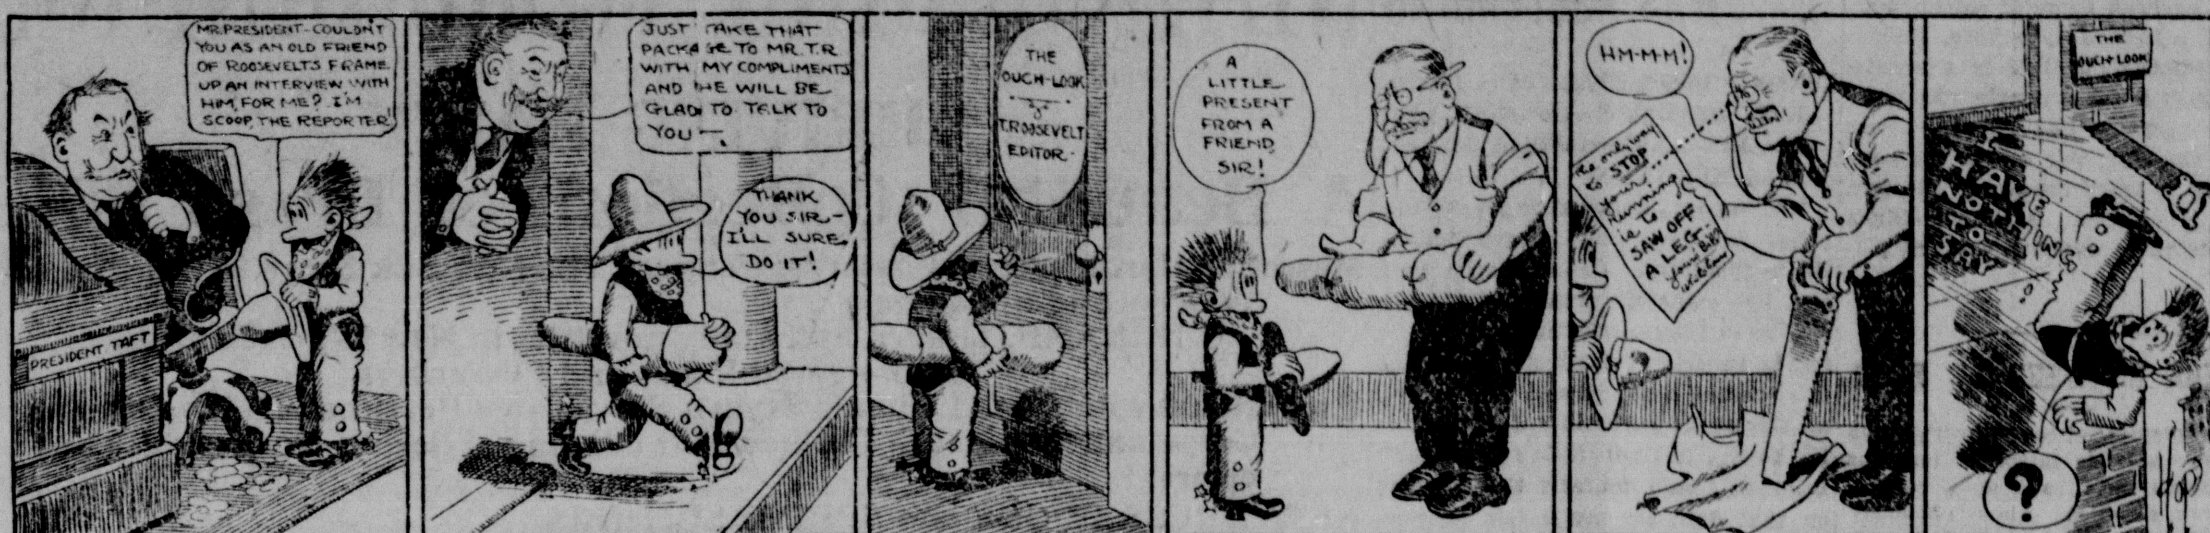

"The large number of men ruined by disease and the vast number of physical and mental wrecks in young and middle-aged men are eloquent evidences of the injury done by neglect and bad advice.
"There are no diseases so destructive to health, happiness and prosperity as Genito urinary diseases." Dr. Thies

SCOOP, THE CUB REPORTER

Teddy "Saw" the Point but Scoop Did Not

DEMENTTOWN

Spring will certainly have to hustle to catch up with the time table. The schedule for its arrival is a week from Friday.

Mayor Vaile has invented a new scheme for carrying his chewing gum. Instead of wearing it behind his ear or under his coat lapel, Mr. V. has arranged a device for carrying it at the rear of his vest. He also claims a big advantage in this manner for, by leaning against the gum, it is pressed out into a thin, wafer-like stick arranged thereby causing the chewer to think he is getting a fresh chew every time he removes it from under Mr. V.'s patent gum carrier, and presser.

Chicago papers report the marriage of Miss Anna Rooney. It's a safe bet that the bridesmaids were The Two Little Girls in Blue.

Bryan has come out for Roosevelt. Gee! how'll Teddy ever survive that? Ever hear the expression: Small for her size? So have we.

Emil Pressler is getting ready to move into his new location two doors north of his present stand. The room has been occupied by W. H. Fleming as a flour store room, but the flour is being moved out and the necessary repairs and changes will be made as quickly as possible. Mr. Pressler hopes to be ready to open in his new room by April 1.

There are some people around here who believe there are women in Dixon who would make good aviatrixes—in that they are so flighty. Which is surely a knock.

After listening to and reading all the dope that is being handed out in the political fights, one is up in the air with most of the candidates, as to whether they are progressive stand-patters or standpat progressives.

And That One Hers. Her little borthert tells this, as having overheard it last night:

Anse Botts, our genial undertaker, also livery and feed stable, has got one of them newfangled calendars, with one day on a page, which has to be turned over. Anse says he can't keep track of what day it is at all with the new thing, because he can't remember whether he has turned the sheet over or not. Four days last week went by unbeknownst to Anse, and he missed a "funeral" a couple of days, but it didn't make much difference anyway, as Anse is the only undertaker here and the late respected deceased had to wait for him.

Hi Haskins' brother, who has been sojourning with him this winter, is getting ready to resume his job as the living skeleton with a circus. He is so darn thin that you kin play a toon on his ribs with a couple of mallets just like a zylafone.

ROOSEVELT IS BARRED

Ex-President Is Summarily Rejected as a Juror.

Counsel for Man Suing Railroad Company for Damages Peremptorily Challenges Him.

Minneapolis, La. L., March 13.—Theodore Roosevelt was drawn as juror No. 7 here in the damage suit of Michael Carmody against the New York Central railroad, but was quickly eliminated by John J. Graham, counsel for the plaintiff, who challenged the colonel peremptorily.

Colonel Roosevelt was plainly disconcerted when he stepped down from the box. "I am ready to do my duty," he said, "but I don't see why I should have to come here day after day if nobody wants me as a juror. I don't see what the boy (Carmody) was afraid of, for I certainly would have given him a square deal."

Mr. Graham had approached the colonel so quietly that for a moment or two few were aware that he had been challenged.

Explaining later why he had challenged the colonel, the lawyer said: "He is a busy man, and I think he would be conferring a greater boon on humanity by serving it in other ways than by sitting in this case for three or four days."

No one was hurt.

Monon's New Passenger Train Crashes Into Freight—Five Cars Derailed.

Bloomington, Ind., March 13.—The Monon's new passenger train "The Red Devil," running between Chicago and French Lick Springs, was wrecked at Carpentersville, when it crashed into a freight. The engine on the passenger was demolished, the caboose was destroyed by fire and five cars were derailed. None of the passengers were seriously injured.

Railway Line Tied Up.

Santa Rosa, March 13.—A landslide on the Northwestern Pacific railroad between Cloverdale and Ukiah delayed traffic on the railroad. The heavy rains during the winter time nearly always give some trouble at the point where the slide occurred.

Charles A. Bigelow Dies.

Meadville, Pa., March 13.—Charles A. Bigelow, the comedian, died suddenly in the Spencer hospital, where he had been taken after a seizure of illness aboard a train on his way from Cambridge Springs to New York.

LABOR LEADERS

ARE ARRAIGNED

Federal Judge Anderson Overrules Motion to Quash Dynamite Indictments.

TRIAL DATE IS OCTOBER 1

Forty-Six of the Fifty-Four Defendants Appear in Court—Men Will Be Tried on a General Conspiracy Charge.

Indianapolis, March 13.—A motion made by Attorney Elijah N. Zoline of Chicago to quash the indictments against 46 of the 54 accused labor leaders involved in the dynamiting plot was emphatically denied by Judge Anderson here.

The labor men stood solidly in the attempt to avoid trial. Attorney Zoline for the defense made a long argument to invalidate the indictments. Judge Anderson interrupted him. "Absurd," he said. "These defendants never will go to trial without thoroughly understanding what they are charged with. They will not be embarrassed or confused in this court. The motion is overruled."

After overruling all demurrers to indictments, Judge Anderson set October 1 as the date for trial of the alleged dynamiters. Question of consolidation of all cases into one trial will be ruled upon this afternoon.

Hovey Makes Attack.

Attorney Alfred Hovey then attacked the indictments, denying there was a showing that the defendants had unlawfully conveyed explosives on passenger trains. He declared there was no violation of federal statute unless explosives were transported on common carriers concealed in unmarked packages, and maintained the indictments did not so aver.

Judge Anderson overruled Attorney Hovey's motion and Walter L. Hall of Muncie presented an argument on a demurrer to the indictments against Hiram Cline of Muncie and S. P. Meadows of Indianapolis.

The men are to be tried on a general conspiracy charge of the interstate shipment of dynamite in an illegal manner. The government alleges a nation-wide plot, carried on for years and culminating in the death of 20 men in Los Angeles Times blast. One hundred explosions destroyed property from Massachusetts to California and have been investigated by the government.

TWO DEAD; 34 SAVED

Steamer Rosecrans Crashes on Reef in Terrific Gale.

Vessel Total Loss—Schooner Falls of Clyde Had Exceedingly Narrow Escape From Same Fate.

Santa Barbara, Cal., March 13.—The Associated Oil company's mammoth oil tank steamer Rosecrans, engaged in the transpacific oil traffic trade, is ashore on the rocky beach at Alcatraz Landing, one mile north of Gaviota, a total loss, and another vessel, the schooner Falls of Clyde, had an exceedingly narrow escape from drifting to a similar fate on the beach nearby—both victims of the terrific gale which has been blowing off the California coast since last midnight.

Two members of the crew of the Rosecrans, the ship's carpenter and a sailor, were swept to their death by the breakers while attempting to climb into a lifeboat. The 34 remaining members of the crew, including Captain Johnson, were brought safely ashore with the aid of lifeboats and lines from the shore.

CLARA BARTON VERY ILL

Has Written an Old Friend Asking Him to Visit Her.

Alpena, Mich., March 13.—Miss Clara Barton, the famed head of the Red Cross organization, now seriously ill in Glen Echo, Md., has written George J. Hazlett of Alpena, who was detailed to Red Cross duty in the Cuban campaign, to hurry to her bedside. Miss Barton is more than ninety years old.

MEXICAN SITUATION UP

Taft Confers With Stimson and Texas Representatives.

President Insists That Neutrality Laws Be Enforced—Mexicans Raid U. S. for Horses.

Washington, March 13.—President Taft is in conference today upon the situation in Mexico with Secretary Stimson, Senator Culberson and the Texas congressional delegation. It is understood that the president and the secretary of war wish to impress upon the Texas authorities that the neutrality laws must be enforced strictly and that no aid to the Mexican insurgents must go to Texas.

The president told his callers that he would not consider intervention unless congress authorized him to take such a step.

Dispatches to the state department from Ambassador Wilson at Mexico City were partly reassuring and partly disconcerting. Mr. Wilson said that the recent proclamation of President Taft was apparently understood in Mexico and any fear that it meant the recognition of the belligerents had died out. Mr. Taft's attitude, the ambassador said, was now understood and has had a beneficial effect.

The most alarming report made by Mr. Wilson was to the effect that many Americans in the western part of Mexico were so destitute that they needed help to get out of the country.

El Paso, Tex., March 13.—Armed Mexican rebels crossed the river into El Paso county and took horses from residents of the United States near Fabens, Tex. E. L. Deshazo, who was in Fabens, brought the report of the raid.

POLICE SHOT BY STRIKERS

2,500 Miners Attack Guards at Colliery—Five Officers Injured.

Berlin, March 13.—The strike of the coal miners in Germany shows the movement making considerable progress in all districts, attended in several instances by rioting of a serious character. In the Westphalian district 200,000 men are out, thus equalling the great strike of 1905. The most serious conflict was near Hamborn, in the Dusseldorf district, where a mob of 2,500 strikers who were waiting for those still at work, threw stones and bottles and fired revolvers at a detachment of police who were trying to preserve order. Five of the policemen were seriously injured.

REPULSE TURKS AND ARABS

Italians Fight Five Hours Before Checking Fees at Tobruk.

Tobruk, Tripoli, March 13.—A strong force of Turks and Arabs attacked the works which the Italians were throwing up outside the town. They delivered assault after assault, but the superiority of the Italian artillery told. After five hours of fighting the enemy retired. The Italians lost thirteen men killed and seventy-three wounded.

WHAT Is Your Disease?

DR. R. S. PIPER

Will Be At Hotel Nachusa, Dixon

FRIDAY, Mar. 15th

Office Hours--8:30 a. m. to 4 p. m.

"He is honest with you"

He Returns Every Twenty-eight Days

Why You Should Come

Many have asked Dr. Piper, how it is that he can cure chronic diseases that the general practitioner can do nothing with. The general answer is: Dr. Piper has devoted his life to the study of Chronic Diseases. He devotes all of his time to his given specialty. He does nothing but office work. Instead of having one office with a practice limited to a radius of a few miles, he has a number of offices, and his practice covers hundreds of miles. He advertises for the difficult and baffling cases that have been seeking relief sometimes for years, many of which come to him and find health and happiness, through the aid of his diagnostic methods and deep acting blood remedies. His advice is always welcome to you. YOU PLACE YOURSELF UNDER NO OBLIGATION WHEN YOU CALL. Come at once and consult the doctor—next time may be too late. Many of you who have been taking medicine and so called treatments for months will be absolutely cured in a few weeks. Very chronic cases will require somewhat longer time, but it will make no difference; you will be treated free, remedies excepted, until you can say, "I AM CURED."

Catarrh. Are your lungs or bronchial tubes weak? Do you cough and expectorate diseased mucus? Does your nose stop up? Is your breath offensive? Have you a bad taste in your mouth? Have you pains in your chest? Are you bothered with shortness of breath and weak spells? Do you have throat trouble with hawking and clearing of your throat? Do you have dripping of sticky mucus from the back part of your nose into your throat? Call and have the doctor examine you. There is no need for you to have Catarrh. It often leads to that dreaded disease that is killing thousands of our best people—Consumption. Dr. Piper's treatment can be used in your home daily. No need of expensive office treatments.

Chronic Stomach Trouble. causes more people to be misunderstood than any other diseased condition of the body. You are irritable in disposition—easily angered. You have plenty of ideas, but never carry any of them out. You are always tired. You have to force yourself to accomplish anything. You become blue and despondent and have many other symptoms which you know only too well. These are the mental symptoms of a deranged stomach. Other symptoms are: Bloating, Belching of gas, sour or greasy matter from the stomach, Pain, Distress, Weakness, Palpitation of the heart, Constipation or Diarrhoea, Unhealthy complexion, Changeable appetite, and Coated tongue. All these symptoms point to a deranged digestion. If you have any of these symptoms, lose no time. Dr. R. S. Piper's deep-acting remedies will cure you, no matter how many doctors have failed. His specialty is the curing of deep, aggravated chronic diseases. His motto is PAY HIM HIS FEE WHEN CURED.

Rheumatism. Are you beginning to become sore and stiffened in your joints? Are your muscles and ligaments contracted? Do you have headaches? Is your tongue coated and your breath bad? Is your urine high colored and offensive? Do you have palpitation of your heart? Do not delay one day longer than you have to, but consult the master specialist, who will tell you what can be done for you. If there are no structural changes, your case is probably curable.

Lost Vitality. Have you never recovered from an old illness? Are you despondent, listless and melancholy? Do you have nervousness and fear of the future? Are you troubled with nervousness and trembling of your limbs? Do you have that tired feeling in the morning? Is your memory failing you? Let Dr. Piper build you up to your former condition as he has done to many suffering likewise.

Men. Are you suffering from early aging, loss of vital power, loss of energy, backache, weak back, shooting pains in the neck, chest, back and limbs, palpitation of the heart, restless nights, bad dreams, loss of ambition and mental activity, nervousness, irritable temper, bad blood diseases which have been neglected or mis-treated? No matter how chronic your trouble may be or how many have treated you, consult the master specialist, Dr. R. S. Piper. He cures 95% of all these cases that appeal to him. A few medicines are quick acting and curative. Don't let false remedies keep you away. These diseases are just as curable as a cold or a fever. A man amongst men before it is too late!

Are You Suffering From. Bloating, Belching of gas or food from your stomach, Pain or distress in your stomach, constipation or loose bowels, Despondency, Melancholia, Loss of Vital Energy, Loss of ambition, Wasting diseases, Varicose veins, Deep-seated blood diseases, Early abuses that have been neglected, Headaches, Shooting pains in the head, neck, back, and limbs, Dizziness, Rheumatism, Auto-intoxication, Infections of a private nature, Drains and losses, Nervous prostration, Piles, Sleeplessness, Neuralgia, Four circulations, Palpitation of the heart, Shortness of breath, Lame back, Spots floating before the eyes, Dyspepsia, Biliousness, Kidney and Bladder trouble, Catarrh of any part of the body, Epilepsy or fits, Asthma, Bronchitis, Eczema, Diseased eyes, Reduced vision for want of the proper glasses, Female diseases, or any evidence of breaking down in MAN or WOMAN? If so, consult Dr. R. S. Piper, the master specialist of Chronic Diseases. No matter how hopeless you may feel, or how many doctors have treated you, if there is a cure for you, he will tell you. If you wish to consult a real Chicago specialist in your home town, don't waste any time, but come at the above place at the stated times.

MAGILL FOR U. S. SENATOR.
With the closing days of the primary campaign at hand in Illinois, the attention of the republican voters is beginning to center upon the three-cornered contest for United States senator. This contest has a peculiar interest from the fact that for the first time in Illinois a trial of strength is to be made between the progressive and conservative forces within the republican party. The contest here will be in line with those that have been carried on with marked results in other states, both east and west, and is in line with the national contest now going on between the leading republican candidates for the presidency.
Senator Hugh S. Magill, the progressive candidate for United States senator, is engaged in a statewide canvass, and while his campaign is not of the spectacular kind he has attracted a large and enthusiastic following. His campaign appeals to those who wish to see a change in present methods and a return to real representative government. He has not only the sound endorsement of the Roosevelt and LaFollette republicans of the state, but his candidacy has been warmly commended by Governor Johnson, Gifford Pinchot and others of national repute.
In his campaign Senator Magill has been getting close to the people, to that class known as the "silent voter," those who are not politicians but who work quietly and for clean politics and honest government. His principal aim has been to get his message to the people, believing that if given a fair hearing, he could convince them of his sincerity and ability.
To those who are opposed to Senator Cullom because of his vote for Lorimer in the United States senate and who are opposed to L. Y. Sherman because of his vote for the pernicious Allen bill and his reactionary attitude, Senator Magill appeals as the man of the hour, because his record is clean, his principles are sound and progressive and because he never fails to bear out the impression that he is absolutely honest and sincere.

CUTICURA OINTMENT
HEALED BAD SORE
Scraped Flesh Off Bone Below Knee. Suffered So She Couldn't Sleep. Also Says: "I Believe Cuticura Soap Is the Best Soap Made."

"Some time ago I was coming up some steps when the board crushed under me like an egg shell, and my right limb went through to the knee, and scraped the flesh off the bone just inside and below the knee. I neglected it for a day or two, then it began to hurt me pretty badly. I put balsam on it to draw out the poison, but when I had used it a week, it hurt so badly that I changed to ointment. That made it smart and burn so badly that I couldn't use it any more, and that was the fourth week after I was hurt."
"Then I began to use Cuticura Ointment for the sore. It stopped hurting immediately and began healing right away. It was a bad-looking sore before Cuticura Ointment healed it, and I suffered so I couldn't sleep from two days after I fell until I began using Cuticura Ointment."
"Cuticura Soap is the best soap I ever saw. I have used all kinds of soap for washing my face, and always it would leave my face smarting. I had to keep a lotion to stop the smart, no matter how expensive a soap I used. I find at last in Cuticura Soap a soap that will clean my face and leave no smarting, and I do not have to use any lotion or anything else to ease it. I believe Cuticura Soap is the best soap made."
(Signed) Mrs. M. E. Fairchild, 805 Lafayette St., Wichita, Kas., May 8, 1911.
Cuticura Soap and Ointment are for sale throughout the world, but to those who have suffered much, lost hope and are without faith in any treatment, a liberal sample of each together with 25-p. Booklet will be mailed free, on application. Address: Potter Drug & Chem. Corp., Dept. 22A, Boston.

DIXONITES MAY GET A LOOK AT "TEDDY"
IF ROOSEVELT USES NORTHWESTERN ON WESTERN TRIP HE MAY BE INDUCED TO STOP HERE FOR SHORT TALK.
The people of Dixon and vicinity may have an opportunity of seeing Theodore Roosevelt and hear him present his claims for the republican nomination for president if the expectation of the Progressive League club of this city materialize.
It was learned today from members of the league that should Roosevelt take the direct route either going on his western trip or returning from it, it is practically certain that arrangements can be made for him to stop here for a short time. The local members of the organization stand very closely to the headquarters officers, because of the excellent work done here, and have been assured that, should it be possible to make such arrangements, a short visit for Dixon will be included in the itinerary.
Roosevelt's managers some time ago decided to have him make a trip through the west, but have not as yet decided on the day he is to start. Until the itinerary is completed, therefore, it is not known what route he will take, but should he go over the Northwestern on either leg of his trip, it is certain that Dixon people will have an opportunity to hear him.

The pictures at the Family theatre this evening will be Roped In and The Physician's Story. Shaw & Lee, novelty singers and dancers, comprise one vaudeville act, while McNeil Sisters will continue to please in the other. Both are excellent. Go and see one of the finest shows at the Family.

OPERA HOUSE.
Laugh and the world laughs with you. Weep and you will laugh with hundreds of others in spite of yourself, if you witness the funny actions of Topsy and the side-splitting comicallities of Marks, the lawyer, in Stebson's double spectacular production of Uncle Tom's Cabin, due tonight at the opera house.

OPERA HOUSE.
"The Servant in the House" which will be presented at the opera house on Friday night, March 15, is a modern comedy that occasionally touches tragic significance. It tells of three brothers who drift apart in early manhood and who unexpectedly meet in England one sunny morning in spring. One had become a Vicar in the Church of England; the second is a victim of drink and is a scavenger; and the third, who had gone to India, has become the famous Bishop of Benares. The scene is laid in the Vicar's house, to which the scavenger comes, or the Drain-Man, as he is called in the play, with hatred in his heart for the clergyman brother who has kept his (the drain-man's) little child away from him. There the drain man meets his other brother, Bishop of Benares, who is disguised as an Oriental butler.
While waiting for the Vicar, the drain-man becomes interested in the disguised Bishop's description of the church he has built in India, a "building whose spans and arches are joined hands of comrades." He is gradually influenced by his unknown brother and, turning from vengeful thoughts finds pleasure in his work, in "cleaning up the muck of the world," as he phrases it. Others, too, are changed by the subtle influence of the strange butler who preaches the gospel of brotherly love.
The play has created a sensation in other cities because of the disguised Bishop of Benares being easily recognizable as a re-incarnation of Christ. The accepted likeness of the Saviour is followed by Hugo Koch, who impersonates this role, but the stage figure is so reverently treated and is invested with such gracious dignity and charm that there is no shock whatever even to the most sensitive religious souls.
Because of the widespread interest which has been taken in The Servant in the House all over the country by persons who rarely attend the theatre, the management anticipates a capacity audience.

PRINCESS THEATRE.
Tonight you will see an excellent

show at the Princess. A western drama, The Girl and the Halfback, a charming love story being interwoven with an exciting game of college football which is won by a hero. Reflections from the Firelight is a beautiful story of two old people who meet after many years and talk over past events. Thrilling war scenes are conjured up. A beautiful story. The last picture is entitled A Ranch Girl's Love and is an exciting western picture.

CHINESE SEAWEED AS FOOD.
Freer commercial contact with China may quite possibly introduce into our table menus varieties of spicy concoctions from seaweed. About 130 nutritive kinds of seaweed are in daily consumption in the far east and the cultivation of seaweed crops is regularly maintained. More than \$600,000 worth of one preparation alone is consumed every year in China in the form of dried gums which can be liquefied into delicate jellies. In Europe seaweed has not been at all considerably used for food, though blanchmanges, salads, green vegetables and a sort of tapioca fluid have been forms in which Scotch, Irish and Mediterranean peasants have partaken of the substances of seaweed. In certain parts of Japan seaweed is subjected to careful cultivation, competing species being suppressed and rocks previously planted with the weed, being sunk in suitable bays.

MAKING A NEW WORLD.
The planet Jupiter, whose volume is 1,279 times that of the earth, and superior in dimensions and weight to all the other planets put together, is just now attracting the attention of astronomers. M. Giacobini of the Paris observatory, who has made a special study of Jupiter, has described a red spot which possesses a relative fixity, but within the last year its mobility has increased to great proportions, and its longitude by about 30 degrees. That is all that we can say scientifically. Is it really the formation of a new continent? Can we draw this deduction from this phenomenon so difficult to seize? It is possible, but who can say so with certainty? M. Camille Flammarion, however, expresses himself with far greater confidence in this matter: "We are assisting at the creation of a world. Under our dazzled eyes a new world is being created in the infinity and in Jupiter: we hail the world of the future."

AFRICANS WHO EAT CLAY
Natives of West Africa, in French Sudan, practice "geophagy." Although the practice is common in many parts of the world, this particular case is remarkable for the systematic way in which the dirt is collected, and for the fact that it occurs in a well cultivated region, where food is abundant. The earth consumed is a clay, which is found intercalated among the grits of the region in beds of various thickness. The deeper layers are preferred and for this reason the natives dig galleries, which are so crudely constructed that falls of earth frequently occur, sometimes with fatal results. When an unlucky miner is thus buried no attempt is made to rescue him, as it is believed that the divinities of the mines require an annual victim. It is stated that individuals not infrequently consume seven and a half pounds of clay daily.

ANCIENT MANCHURIAN TOWER

One of the interesting objects recently revealed to occidental eyes in Manchuria is this ancient tower, which stands near the city of Chang-Ching. The upper and lower parts are defaced by time and weather, but elaborate carvings to be seen on the midportion.

THREE PARTS TO COMET.
A comet has three parts. The nucleus is the bright, starlike point which is the kernel, the true potential comet. Around this is spread the coma, a sort of luminous fog, shading from the nucleus and forming with it the head. Still beyond is the delicate tail, stretching away into space. And this to the world in general is the comet itself, though always the least dense of the whole. Sometimes entirely wanting, or hardly detectible, the tail is again an extension millions of miles in length. Although usually a single brush of light, comets have been seen with no fewer than six tails.

BANK REPORT WAS MISLEADING
DIXON BANK REALLY HAS LARGE DEPOSITS OF ANY LEE COUNTY BANK—AMBOY PAPER WAS MISTAKEN.
The report published in an Amboy paper recently, taken from Lane's Bank Directory, dated over a year ago, has evidently obtained wide notice as outlying banks have been sending in reports of their standing. At the present time, about March 1st, all the banks have extra deposits owing to the large traffic in farms and loans at that time, and the deposits on that date are not a fair average for the year, as they do not remain permanently.
In order to show the standing of the five largest banks in the county, we give the figures from the last official statement, dated Feb. 20, for National banks, and Feb. 21 for state banks:

COLLEGE GIRLS WIN.
The girls' basketball team of the Dixon college and Coppins' commercial school played last night at the college gym; the young ladies from Prof. Edwards' institution were victors, score 6 to 1. The girls from the Commercial school played a good game but claim they were at a disadvantage because of the dim light in the gym and the strangeness of the baskets.

TO BREAK UP COLD

Some Advice That Will Save Time and Money

Strong drink and quinine may relieve a cold, but it usually does more harm than good.

To break up a hard cold in either head or chest thousands are using this sensible treatment.

First of all look after your bowels; if they need attention use any reliable cathartic. Then pour a scant tea spoonful of HYOMEI into a bowl of boiling water, cover head and bowl with a towel and breathe for 5 or 10 minutes the pleasant, soothing, healing vapor.

Do this just before going to bed; your head will feel fine and clear and you'll awake from a refreshing sleep minus a cold in the morning. For colds (coughs, catarrh, asthma and croup HYOMEI is guaranteed. A fifty cent bottle is all you need to break up a cold and this can be obtained at Rowland Bros. drug store and druggists everywhere.

NEWS OF ILLINOIS "THE MAN WHO CAN BE ELECTED GOVERNOR"

A Telegraphic Chronicle of State Happenings.

NOTED MINISTER IS DEAD

Rev. Robert Criswell, Who Was Friend of Lincoln, Expires at the Age of Ninety-Three at Bloomington.

Bloomington, March 13.—Rev. Robert Criswell, one of the oldest Presbyterian clergymen in the United States, is dead here at the age of ninety-three. He took a prominent part in the Harrison presidential campaign in 1840 and was a widely-known evangelist for half a century. He was an intimate friend of Abraham Lincoln and accompanied Mr. Lincoln to the funeral of Governor Bissell.

Will Appeal Drainage Case.

Kewanee, March 13.—The commissioners of Bay Island drainage district No. 1 of Mercer county have decided to appeal their case against the Union drainage district, which is made up of lands in both Rock Island and Mercer counties, to the state supreme court. The case is an old one, the Bay Island district, which lies on lower land, attempting to collect for benefits done by its canals to the farms of the higher district, under the laws of 1903. The cases were tried in Aledo last fall, and the ruling was in favor of the defendants.

Sunday Theaters to Be Voted On.

Bloomington, March 13.—Whether the theaters and other places of amusement here shall be open on Sunday will be decided by the voters at the regular city election next April. Sumner asserts his grandfather, Edward Sumner, who died in 1882, amassed the greater part of the Caldwell fortune.

Woman Is Ill; Kills Herself.

J. McCan DAVIS of Springfield, Illinois.

"J. McCan Davis, if nominated by the republican party for Governor, will be elected."

"J. McCan Davis is the only Republican whose nomination for Governor is at all probable who can be elected this year."

"J. McCan Davis, because of his freedom from the factional fights of the past dozen years, would be supported by the entire Republican party of Illinois in November."

"J. McCan Davis is the logical country candidate for governor—the one man who can concentrate the down-state vote on himself in this primary contest. He has tried this thing before (in 1908) and succeeded."

"We do not want a Chicago man for Governor this year. Give us a man from the country—a man who knows the needs of the State at large—a man who, like J. McCan Davis, is in touch with the country people."

Such are expressions that are coming from all over the State regarding J. McCan Davis, since he became a candidate for Governor the middle of February. Since that time Mr. Davis has talked to hundreds of thousands of voters—not in person, of course, but through the newspapers of this State. Public sentiment has responded readily, as it becomes evident that he is the available candidate—the man who can be elected.

"Mr. Davis is the cleanest Republican that has yet announced himself," says the Weldon Record, "and there is not a doubt that he will receive the support from this section in preference to the two 'leading' men now in the race—Governor Deneen and John E. Wayman, both of Chicago." The Jacksonville Courier (Dem.) pronounces him a "clean, clear-cut fellow, absolutely above suspicion of craftiness or crookedness of any sort," which makes him all the more dangerous in the view of the other aspirants, and predicts that "he may tear great rents in some political machines that are now regarded as impregnable—stranger things have happened." The Lee Standard calls Mr. Davis "the second Abraham Lincoln," and declares that his announcement, "coming as it did at the eleventh hour, has caused some consternation among politicians." The debut of a clean candidate," says The Standard, "will afford the people great relief, as the mudslinging tactics indulged in by the present candidates are most disgusting. A good, clean man is bound to win, as the people are tired of our present methods. J. McCan Davis is widely known throughout the country as an author, close student of public affairs and a square-toed man."

These sentiments reflect the sentiment that is growing with great rapidity throughout the state.

Abraham Lincoln was nominated for President in 1860 solely because he was the most available man. Of all the candidates—of all the dozen or more who had been mentioned as Presidential possibilities—he was the least talked about in the nation at large up to the convening of the convention. At that time other men were far better known. But Lincoln had laid the foundation for his success—and when it became evident that Seward, or Cameron or Wade, or any of the several others, could not be elected if nominated, the convention turned to Lincoln as the one man who could be elected.

That is how it came to pass that Abraham Lincoln was nominated for President in 1860. The convention was right—Lincoln was elected—and he proved to be by far the greatest man of his time.

HOME HEALTH CLUB.

By Dr. David H. Reeder, La Porte, Ind.

SORE THROAT: There are many kinds of sore throat, but in a general way all yield to the same treatment when the cause is a common cold, or from conditions that bring catarrh, as the latter is popularly known.

In the short lecture that this is intended to be no attempt will be made to describe the symptoms and character of even such sore throats as we shall here consider. That would be a voluminous undertaking.

For the most part, ordinary sore throat is contracted by careless exposure, getting the feet wet through the shoes in damp, slushy or rainy weather. Added to this, frequently, are imprudent eating, lack of care of skin and lack of exercise.

Habituate yourself to baring the throat rather than muffling it; keep the skin always clean that the pores may not be hindered from performing their ever necessary function of bearing off the refuse that is constantly seeking an exit through these little channels provided by nature for that purpose, a cleansing process that is positively mandatory as an accessory to good health, and to which nature has added the adjunct of pure water, wherever humanity dwells. Eat simple food and take plenty of exercise. This will always prevent a sore throat. If you have a simple and acute attack of sore throat, bathe the feet in hot water before going to bed and place a cold compress about the throat. This last named will relieve fallen palate immediately.

Chronic sore throat is more common than the acute stage, overlooking the fact that it must be acute before it becomes chronic. By which it is meant to say that there are more cases of chronic sore throat to be met with every day than cases of acute sore throat that may be quickly cured by the means mentioned.

In chronic sore throat the regime prescribed for avoiding an attack is absolutely necessary as to sanitation, diet, exercise and all that, before one can hope to recover. The diet should be nourishing but from it should be excluded spicy and highly seasoned foods. Frequent hot baths and thorough rubbing afterward with care as to exposure for some hours after bath. When the case is obstinate resort to rubbings with blankets wrung out of hot water, as so often described in these lectures. But the hot baths or hot blanket rubbing should be followed by a dash of cold water or a thorough rubbing with olive oil or vaseline, in order to prevent the taking of more cold through the relaxed skin. Use the cold compress on the throat frequently and judiciously. Avoid hawking, spitting and coughing as much as possible. When the voice is affected and there is a stuffed up feeling in the chest, apply the cold compresses over the upper part of the breast also.

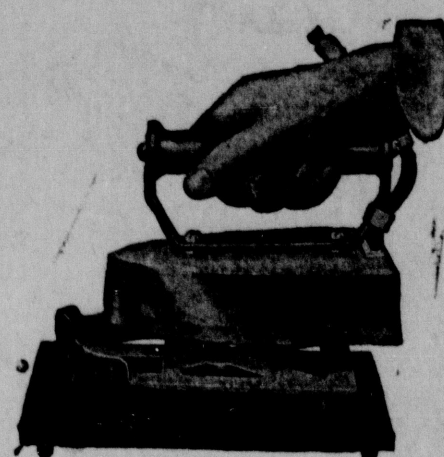

The exercises prescribed for catarrh will be very beneficial in chronic sore throat. Persist in this treatment with care and common sense and your throat will get well. Observe the rules for sanitation, etc., and it will stay well.

As farmers in Canada are going broke and land prices tumbling no one will buy it. I have talked and advertised for ten years that only a third or less of either the Dakotas was good for farming and the good part of S. D. too high to buy. The last two crops show what is best. Cavalier county had crops in 1910 that paid for the land and also in 1911. 1912 promises much better and I will still give you a chance to pay for a farm with one crop. As an investment land here will pay better interest on \$100 an acre than land in Ill. at the prices it is selling at as there so much of the rent has to be paid out for taxes, improvements and insurance. Having been here over ten years I predict Hundred Dollar land here in five to seven years. The farmers here are buying it and they are making money faster than any other farmers in the world. E. A. WADSWORTH, Langdon, N. D.

THERE ARE HUNDREDS OF DIX- ON PEOPLE SIMILARLY SITUATED.

Can there be any stronger proof offered than the evidence of Dixon residents? After you have read the following, quietly answer the question:

Julius Gottlieb, 418 W. First St., Dixon, Ill., says: "My back pained me for some time and I was often so lame and sore that it was hard for me to stoop. The secretions from my kidneys were irregular in passage and I was thus convinced that my kidneys were disordered. Seeing Doan's Kidney Pills advertised, I got a box at Leake Bros. Co.'s Drug Store and commenced their use. My experience with this remedy is very satisfactory and I am pleased to acknowledge the benefit I received." (Statement given April 14, 1909).

A Lasting Effect.

Mr. Gottlieb was interviewed on January 4, 1910, and he added to the above: "You may continue to publish my former endorsement of Doan's Kidney Pills. The relief they gave me has been permanent."

LONG ACTIVE LIFE

Veteran of Editorial Ranks Is Dr.
George Brown.

Founder of the First Free State News-
paper Published in Kansas—Re-
members the Exciting Days
of Border Warfare.

There is living today in Illinois a man who played a large part in the making of Kansas history. He is Dr. George Brown, who came to Lawrence in 1854 and there established the Herald of Freedom, the first free state newspaper ever published in Kansas. Today Dr. Brown is almost the last of the men who fought for Kansas in that bloody time before the war, risking their lives to uphold a principle they believed sacred—the principle of human freedom, says the Kansas City Star.

Dr. Brown is ninety-two years old—in the late evening of his life—but he still remembers vividly the exciting events of the border warfare days, when he published the Herald of Freedom from a log cabin in Lawrence, writing against slavery with a fearlessness that made him the object of deep hatred from the southerners, who were equally determined to make Kansas a slave state. So it happened, when Lawrence was raided in 1856, that one of the first buildings to which the torch was applied was the office of the Herald of Freedom.

In the fall of 1854 he removed to Lawrence, Kan., and erected a house, the timber of which was cut and hewed by his printers and saved by the New England Emigrant Aid company's mill. It was the first lumber saved by the company's mill, and when he had finished his building at once he began to publish the Herald of Freedom, which helped to make Kansas a free state. This paper, Dr. W. Wilder said, was "the most perfect in character, typography and general make-up of any paper I ever saw." Governor Geary was present upon an occasion when the stars and stripes were raised to the summit of the staff over the Herald building and made a brief speech to the assembled multi-

Dr. George Brown, Who Established the Herald of Freedom at Lawrence, Kan., in 1854. He Still Is Living at the Age of Ninety-Two.

tude. Mrs. Sara T. D. Robinson, the widow of ex-Governor Robinson, says that Dr. Brown "wrote its editorials, carefully reviewed whatever appeared in its columns, excluded from its advertising pages every offensive matter, declined, even for double compensation, to advertise the sale of intoxicants, ever warred upon the wrong in all its forms and that his principal enemies were lawbreakers."

During the turbulent days on the border he was imprisoned for championing the cause of human freedom. He was not disturbed, but lived to see the principles he advocated triumph.

PEARL FISHING IN SCOTLAND

Gems of Considerable Value Have
Been Found in the Rivers of
That Country.

It is a common belief that pearl oysters are found only in ocean beds, and perhaps it may be a surprise to some to learn that pearl fishing is extensively carried on in several Scottish rivers and if the pearls there found are not quite so fine as those got from the ocean, they are in considerable demand and can command good prices. On the River Tay, 40 miles from its mouth, quite a small trade is done in fresh water pearls, and there the method of procedure is as follows: The fisher having armed himself with a long bamboo pole split at one end, and a contrivance very like a tin pail with a glass bottom, embarks in his boat (sometimes only a large wooden box) and sculls out onto the stream, which at this point runs very slowly and is of considerable depth. Letting down his "pail" a few inches into the water so that he can clearly see through the glass bottom the objects on the bed of the river, he sculls along until he comes to a clump of oysters (which grow with the sharp edge upward), and letting down his long pole he secures one of them in the cleft and lifts it into the boat. After having procured a score or two he opens every shell with his knife and examines carefully the inner edge. The gems, however, are difficult to get, often several dozen oysters being opened before one is found. As much as 30 pounds has been got for one of the fresh-water pearls.—Wide World Magazine.

interior decorations. A room having
the walls and ceilings hand decorated
is more than half furnished.
Roses, lilies, lilacs, etc., painted, not
in pictures, but on the walls in
friezes, etc. E. A. Patrick can do
the work, has done it for more than
twenty years.

All Orders for Monumental Work
